Module 4.2

The screenshot shows a terminal window titled "MySQL 8.0 Command Line Cli". It displays the MySQL monitor welcome message, including the connection ID (15), server version (8.0.44), and copyright information. The user then creates a new database named "movies" using the command "CREATE DATABASE movies;". After executing the command, the user runs "SHOW DATABASES;" to list all databases, which shows the newly created "movies" database alongside the standard MySQL system databases: information_schema, mysql, performance_schema, and sys. The entire session is displayed in a monospaced font.

```
MySQL 8.0 Command Line Cli  X + ▾
Enter password: *****
Welcome to the MySQL monitor.  Commands end with ; or \g.
Your MySQL connection id is 15
Server version: 8.0.44 MySQL Community Server - GPL
